This is in line with the state's policy and in implementation of its plan for human development. Since President Abdel Fattah El-Sisi assumed responsibility for governance, his interest has focused on developing the Egyptian human being, as he stressed that the New Republic of Egypt attaches utmost importance to building the human being healthily, scientifically, and culturally. The "A New Beginning for Building the Egyptian Human Being" initiative comes with the aim of investing in human capital through a work program targeting human development and work To consolidate the Egyptian identity by enhancing efforts, coordination and integration between all state agencies in the various regions of the Republic, especially the relevant ministries, such as: Education, Health, Endowments, Culture, Social Solidarity, Youth and Sports, and others, to achieve the goals of the initiative, so that the citizen feels the positive return within a short period. In addition to the initiative's interest in the Egyptian family through an integrated program, it also focuses on building awareness,

preparing new generations that have the values of belonging and loyalty to the Egyptian state, preserving the nation's capabilities and participating effectively in the comprehensive development process.

Awareness included emphasizing the main axes of the initiative, such as enhancing national security, building the Egyptian person, developing a competitive economy, and achieving political stability. It also focuses on improving the health system, providing better education, securing decent job opportunities, and enhancing social protection.

Education: by developing educational curricula, providing advanced - training programs for teachers, and enhancing the use of modern technology in education.

Health: by launching awareness campaigns -
